PROJECTS

Portfolio Website | Personal Project

2020

I worked on my portfolio website (<https://https://sshivam-me.web.app/>) during the lockdown (2022), which led to a better understanding of frontend languages (HTML, Css, JavaScript), I got to learn how to use Git and Github, hosting servers (Firebase) and Google analytics.

- Made a contact form using **PHP**
- Used **JavaScript** to create a pop-up contact form.
- Utilized media query in Css to make my website responsive to all screen sizes.

PROFESSIONAL EXPERIENCE

Freelance Designer at xToadz (Virtual) | Chicago, IL, US

August 2022- July 2024

I worked as a freelance Graphic Designer, Video editor, Animator, and 3D character and animations creator at **xToadz**, Chicago based Blockchain Game studio company.

- worked in tight deadlines, which gave me a lot of experience on communicating and handling the client.
- Reviewed designs of other designers before it was sent to the marketing teams for advertisements.
- Used Photoshop, Blender 3D, Davinci Resolve and Figma to achieve the needs of the client.

VOLUNTEER EXPERIENCE

Stage and Artist Management| Zomaland by Zomato live

February 2023 & 2024

- I was a bridge between the artists and the event venue. fulfilling the need of the artists, and making the event to be performed smoothly and hassle free.
- Directed stage operations and back stage, guaranteeing optimal sound check, food and beverages for artists, and any additional need of the artists was fulfilled by me.

Ocean Conservation Volunteer| Tajpur, Contai

December 2023

- I led a group in beach cleanup initiatives at Tajpur Beach, fostering community engagement and promoting environmental responsibility.
- Contributed to marine debris removal and coastal ecosystem restoration, advocating for ocean conservation and sustainable practices.
- Raised an awareness about cleanliness of the beach and tourism to the local people of the Contai by interacting with them.
